

Gap Analysis Report

If a cut score has been determined for a customized assessment, individual scores can be compared against the cut score in each of the duty categories on the assessment as well as the overall assessment. This report indicates in which duty categories the test-taker needs improvement and which they have passed.

CANDIDATE 1

Industrial Maintenance Mechanic – Gap Analysis

Test Component	Duty Category	Performance
A.	Machinery and Equipment	Pass
B.	Tools and Safety	Needs Improvement
C.	Electronics and Electrical Principles	Needs Improvement
D.	Banking and Banking Procedures	Needs Improvement
E.	Merchandise Inventory	Needs Improvement
F.	Completion of Accounting Cycle	Needs Improvement
G.	Locate Source Data	Pass
H.	Mechanical/Electronic Accounting Devices	Needs Improvement
I.	Advanced Accounting Practices	Needs Improvement
J.	Prepare Studies and Reports	Pass

Overall Performance	Needs Improvement
----------------------------	--------------------------

Description of Test Components		
A.		Machinery and Equipment
	1	Disassemble, repair, and reassemble machinery
	2	Maintain operating condition of machinery
	3	Identify and troubleshoot defects and malfunctions
	4	Test operation of newly repaired machinery
	5	Analyze test results, machine error messages, and information from operators
